# IRFANA M

**Web Developer | Full-Stack Developer (MERN)**

Dubai, UAE | +971 52 660 3057 | irfana.18m@gmail.com | linkedin.com/in/irfana-riyas | github.com/Irfana-M

UAE Spouse Visa | Available Immediately | Full-time, On-site

## PROFESSIONAL SUMMARY

Web Developer with a B.Tech in Computer Science and Engineering, previous professional experience in PHP and MySQL development, and current full-stack skills in JavaScript, TypeScript and the MERN stack. Built three web applications with REST APIs, MongoDB, JWT authentication, payment integrations and AWS deployment. Seeking a Web Developer / Software Engineer role maintaining and improving web applications and business systems.

## TECHNICAL SKILLS

**Programming Languages:** JavaScript (ES6+), TypeScript, SQL, PHP (previous professional experience)

**Frontend Development:** React.js, Redux Toolkit, HTML5, CSS3, Tailwind CSS, Bootstrap, responsive design

**Backend Development:** Node.js, Express.js, RESTful APIs, JWT (access/refresh tokens), role-based access control, Zod validation, Multer

**Databases:** MongoDB, MongoDB Atlas, MySQL, SQL, database design

**Tools and Technologies:** Git, GitHub, Postman, Stripe, Razorpay, Cloudinary, Socket.IO, WebRTC, Figma, README and API documentation

**Cloud and Deployment:** AWS (EC2, S3, Route 53), Nginx, PM2, SSL/HTTPS, Vercel, Render

## PROFESSIONAL EXPERIENCE

**PHP Web Developer | Datastone Solutions, Kottakkal, Kerala, India** July 2018 – November 2018

- Developed and maintained PHP and MySQL web applications as part of a development team.
- Wrote SQL queries and built responsive interfaces with HTML, CSS, JavaScript and Bootstrap.
- Debugged issues and implemented feature changes based on project requirements.

## PROJECTS

**Aptus: Online Tutoring Platform** React, TypeScript, Node.js, Express, MongoDB, Stripe, AWS

- Built student, mentor and admin workflows with JWT authentication, role-based access control and mentor approval.
- Integrated Stripe, creating payment intents on the server before students continue to scheduling.
- Built admin matching and approval for mentor requests, generating course enrollments and recurring sessions.
- Added Socket.IO real-time chat and WebRTC video classes.
- Structured the REST API as Controller-Service-Repository with dependency injection, DTOs, Zod validation and centralized error handling.
- Deployed on AWS EC2 with Nginx, PM2, Route 53, SSL/HTTPS and S3.

**Auth-KYC: Authentication and KYC Verification System** React, TypeScript, Node.js, Express, MongoDB

- Implemented registration, login and protected routes with JWT access and refresh tokens.
- Built KYC document upload with Multer and Cloudinary, with Zod validation and rate limiting.
- Deployed the frontend on Vercel and the backend on AWS EC2 with Nginx and PM2.

**BagIt: E-Commerce Web Application** JavaScript, Node.js, Express, EJS, MongoDB, Razorpay

- Built product management, authentication, cart, checkout and order management using MVC architecture.
- Integrated Razorpay with server-side payment verification, and built an admin panel for products, users and orders.

## TRAINING AND EDUCATION

**Full-Stack Development Program (MERN) | Brototype, Kerala, India** 2024 – 2025

- Project-based training in React, TypeScript, Node.js, Express, MongoDB and AWS deployment.
- Tested REST APIs with Postman, debugged with console logs, and planned database design and UI (Figma) before each project.

**PHP and WordPress Training | IPIX Technologies, Kozhikode, Kerala, India** 2018

**B.Tech, Computer Science and Engineering | MES College of Engineering, Kuttippuram** 2010 – 2014
